Summary

MCA (ML/AI) graduate with a Java backend base and hands-on Generative AI project work. Builds and deploys end-to-end applications: REST APIs, web apps and AI agents. Looking for a software, GenAI or AI/ML engineering role where I can ship real products.

Technical Skills

- **Languages:** Java, Python, SQL, JavaScript, C/C++
- **Backend:** Spring Boot, Hibernate, JDBC, REST APIs, Django, Microservices
- **Frontend:** React, HTML, CSS, JavaScript
- **AI / ML:** scikit-learn, TensorFlow, PyTorch, RAG, LangGraph, AI agents, Generative AI
- **Databases:** MySQL
- **Data & BI:** Power BI, Tableau, GA4, GTM
- **DevOps & Cloud:** Docker, Kubernetes, Terraform, CI/CD, AWS / GCP / Azure (fundamentals)
- **Testing:** Manual testing, Selenium (Java)
- **Practices:** Agile, SDLC models, BRD / FRD / SRS documentation, Data Structures & Algorithms (around 200 problems on LeetCode and HackerRank)

Experience

Associate, ML Data Operations — Amazon (Remote) *Oct 2026 – Present*

- Annotate and review image data used to train machine learning models, following detailed quality guidelines
- Apply segmentation labelling rules consistently and accurately across large datasets

Web Development Intern — Solnet *Dec 2025 – Jun 2026*

- Built and maintained client websites using Django, Python, HTML, CSS, JavaScript and PHP
- Used React and Django in projects, with AI tools to speed up development
- Performed manual testing on internship projects before delivery

Projects

ResumeFit AI — Resume and job description fit analyzer *Deployed live*

- Compares a resume against a job description and scores the match using local, Python-only matching (no paid LLM APIs)

Enterprise Knowledge Assistant — Multi-document RAG platform

- ChatGPT-style assistant that answers questions from multiple uploaded documents using retrieval-augmented generation

Multi-Agent Career Assistant — LangGraph

- Career assistant built from five cooperating AI agents orchestrated with LangGraph

Gram Panchayat Complaint Management System — Research paper

- Wrote a research paper on an automated complaint management system for Gram Panchayats; tested the system manually

Microservices Application — Java, Spring Boot

- Built small independent services separately, then integrated them into one working application

Education

MCA, specialization in ML/AI — Ramdeobaba University, Nagpur *2024 – 2026 | CGPA 7.3*
Coursework: Artificial Intelligence, Machine Learning, Deep Learning, Statistics and Probability, Linear Algebra, Computer Networks

BCA — City Premier College *CGPA 7.30*

Certifications

- **HackerRank Orchestrate (October 2026)** — Built and deployed an AI agent; final rank #1767 of 4,094 participants
- **Gen AI Data Analytics Job Simulation** — Tata (Forage)
